

**You're one
step closer to the
perfect personal
care product
formulation with
BASF Wyandotte.**

*A unique way to give you the
exact surfactant you need. Fast!*

BASF Wyandotte gives you a broad range of over 100 different surfactants, covering the entire spectrum of applications and properties. We can provide custom surfactant formulations if necessary to meet your precise requirements. And our advanced research and development facility has made us an industry leader in cosmetic surfactant development.

A wide selection of BASF Wyandotte surfactants are non-sensitizing, 100% active and non-ionic. They add virtually no taste or smell, meet or exceed all new TSCA and FDA requirements, and provide the consistent quality you need for cosmetic toiletry and pharmaceutical formulations.

Our exclusive Pluronic® Grid System saves you time, too! It identifies the surfactant you need ... often in a matter of seconds.

Whether you're developing a new cosmetic, or want to improve an existing formulation, we'll come up with the right answer, fast!

Call toll free at 1-800-521-9100.
