

Nature doesn't have to certify her colors.
Neither do we.

Avoid the next color crisis. Roche carotenoids duplicate the colors found in nature's yellow, orange and tomato-red hues. Carotenoids are permanently listed FDA color additives — they require no certification.

For further information about carotenoids call (800) 631-7276 toll-free or write Chemdex Information Services, Fine Chemicals Department, Hoffmann-La Roche Inc., Nutley, New Jersey 07110.
