# YOU CAN'T IMITATE QUALITY.

## MIRANOL FOR PERSONAL CARE.

There's no substitute for the Miranol touch to give your personal care formulations just the qualities you want. Our specialty chemicals give you more mildness, easier formulating, better moisturizing and the right level of lather and controlled conditioning.

Now Miranol offers three more conditioning agents: **Mirapol® 9**, **Mirapol® 95** and **Mirapol® 175**.

The new Mirapols® give you the most desirable properties of today's polycationics: they're mild, effective conditioning agents, easy to formulate for superior static control, and they suit your needs for substantivity and compatibility.

The new Mirapols® extend our line of cosmetic quality products. Miranol® amphoteric surfactants. Miranate® anionic surfactants. Mirataine® betaines and sultaines. Miranol Ester moisturizer and emollient. And Mirapol® functional polycationics.

No other specialty chemicals come close for variety or quality. Plus ours are backed by 40 years of experience, outstanding service and unexcelled technical support. For product information or samples, call or write today.
