

a package for your thoughts...

In almost any size or shape, singly or in multiples, side by side or stacked. It's all wrapped up, to reduce overall packaging costs, by Mead's Cluster-Pak 1022.

Especially designed for the frozen food and dairy industries, the 1022 is a simple, compact, continuous motion machine that sur-

passes both 3-A

dairy standards and speeds of the fastest filling equipment. And, the 1022 is just the newest link in a total

packaging system that makes marketing ideas come to life. Engineering, printing, paperboard, graphic design. Call the Man From Mead to convert your thoughts to packages—that sell!
