

The future is with us today.

We have said publicly that adversity can—and should—generate new ideas for a better tomorrow.

Our massive investments in new facilities, improved production techniques and environmental protection will contribute to that brighter tomorrow.

We are doing this in the belief that the best is yet to come. For future generations. For all of us.

 **ARCO Chemical Company**

Houston, Texas

Lakewood, California

Mother Nature Supplies Our Major Raw Materials

Many of Armak's chemicals are derived from naturally occurring fats and oils thus assuring a constant source of supply to our customers.

While prices for natural materials may rise and fall dramatically, Nature is still a dependable supplier. From her bounty Armak Chemicals Division manufactures a wide variety of fatty amines and other amine derivatives, esters and fatty acids.

Purchasing agents know they can count on Armak for a long list of high quality chemicals. Some of the products nature helps provide include:

Armeen® primary, secondary and tertiary amines; *Armac*® amine acetates; *Arquad*® quaternary ammonium salts; *Armide*® aliphatic amides; *Aromox*® amine oxides; *Kessco*® fatty acid esters and *Neo-Fat*® fatty acids.

To find out more about Armak® chemicals call (312) 786-0400 or write to Armak Chemicals Division, Box 1805, Chicago, Illinois 60690.
