

we
don't
know
the
half
of it

FRO

Half the story of Fro-Dex® corn syrup solids is that it is a solids builder, a carrier, a humectant, a plasticizer, a money-saver; that it adds viscosity and controls sweetness. The other half is the hundreds upon hundreds of uses to which it can be put to improve products and save money. That's where you come in—and our Technical Service. Call our Mr. Ueberbacher today.
