

DOES YOUR SWEETENER HAVE STRINGS ATTACHED?

Sunette® brand sweetener (acesulfame K) delivers taste, stability and versatility without tying you up in knots. ☀️ Acesulfame K is heat stable, so it doesn't require special processing. It has no special labeling requirements. It's pH stable over a broad range. And it's calorie-free. As a solo sweetener, ☀️ acesulfame K is 200 times sweeter than sugar. And when blended with other sweetening ingredients, it improves your sweetness profile while substantially reducing sweetener usage and cost. ☀️ Acesulfame K is your sweetener, your way, no strings attached. For more information or to obtain a sample, call the Sunette Information Center at 800-344-5807.
