

LONZA

A superior humectant — derived from corn. Lonza Sorbitol U.S. solution is a natural humectant that improves many types of pharmaceutical products... from cough syrups to antacids to liquid vitamins. It provides a coolingly sweet taste without any unpleasant aftertaste. Lonza Sorbitol can effectively be used as a moisture balancer, softener and plasticizer in a variety of applications. It picks up water more slowly at low humidities than glycerine or other polyhydric alcohols... picks up moisture at a slower rate in high humidities. It prevents crystallization and resulting cap lock.
