

Staley Food Starches

...developed by Staley technologists to give you the exact functional and processing characteristics you want.

We produce and market over 140 modified and unmodified food starches derived from regular dent, waxy and high amylose corn, and from potatoes and tapioca.

For samples and information about how we can work together, call or write A.E. Staley Mfg. Co., Decatur, IL 62525, 217/423-4411.
