

**FRESH
CATCH-OF-THE-DAY
FLAVOR!**

Our natural seafood bases are so rich in tender clams, Gulf shrimp, North Atlantic lobster meat and selected flatfish that you can use them in place of fresh seafood, both to extend ingredients and to provide or enhance fresh seafood flavor.

Processors & central kitchens use them to:

- make rich stocks and broths for chowders and bisques
- flavor breadings and batters for fried fish, shrimp and clams
- enhance seafood crepes, sauces, spreads and salad dressings
