**EVAPURE™
FG**

evaporated granulated food grade salt

Now you can get an extremely pure granulated salt produced under strict quality control procedures expressly for the food industry. EVAPURE FG is evaporated, dried, screened and quality control tested before being packaged in 50 or 80-pound moisture resistant bags. It gives you sodium chloride at 99.85% ± 0.05%

on a dry basis. Moisture is nil. Fineness modulus is 2.91. TCP added at customer request to inhibit caking. Call for complete technical data.

Buy direct—from a source that mines, processes, packages and delivers to you. Buy from SIFTO®.
