Triangle . . . running better
in high-performance
packaging systems.

TRIANGLE

Bag machines • Scales • Fill equipment
• And related high-performance
packaging systems.

Circle No. 141 on Information Card

Triangle packaging systems are helping Tootsie Industries do just that. Precisely. Profitably. Around the clock. Triangle single and twin-tube bag machines are being used on Tootsie Rolls, Pops and Pop Drops. Poly bag sizes run from 2¼ to 24 ounces. Flexitron scale systems on bag machines and in cartoning operations help eliminate underweight and "giveaway" problems. Exceptional repeatability and long-haul economy are the plus values of Triangle performance. Like to know more? Write: Triangle Package Machinery Co., 6655 W. Diversey Ave., Chicago, Ill. 60635. Phone (312) 889-4000. We'd like to be of service.
