Dietetic foods

A vibrant illustration of a woman with blonde hair, wearing a pink bikini, swimming underwater. She is holding a piece of seaweed. Around her are several colorful fish, including a yellow and black striped one, and large, purple and green seaweed plants. Bubbles are rising from her. The background is a deep blue-green water.

Here's a top quality Carrageenan that is in most cases superior to any comparable product on the market today! Trust forty years of Colony service for prompt delivery and guaranteed high quality products. Also available: Other seaweed derivatives, plants and seed gums, including Agar, Arabic, Guar, LBG, Ghatti, Tragacanth, Karaya, and many more. Send for our new brochure. We're always available for technical assistance.
