

Look to Stepan
for creative
pesticide
emulsifiers.

Pesticides play a vital role in feeding the hungry people of the world. At Stepan, new and improved emulsifiers for insecticides and herbicides are under continuous research and development. Marketed under the trade name "Toximul®" they are known throughout the world. For your pesticide, look to Stepan for emulsifiers that give outstanding performance in emulsion stability and compatibility over a wide range of use conditions.

Look to Stepan
for more than
agricultural
emulsifiers.
