

A fruit drink is only a drink—until Kelcoloid

Fruit particles stay in suspension. Whole drink through. Full flavor release. Week in, week out. Gumminess and clumping prevented, too. Mouthfeel is perfect. Even in

low-calorie drinks. If you want to turn a "so-so" drink into a "go-go" best seller—use Kelcoloid® HVF. You'll be glad you did. To whom shall we send the tryout sample?
