

Land O' Lakes starts here.

Quality Dairy Proteins

Land O' Lakes starts with fresh milk from its member farms. This milk is processed into Land O' Lakes cheese and butter, and from these processes come top quality Land O' Lakes **Dry Whey, Buttermilk and Non-Fat Dry Milk**. With these basic quality ingredients and Land O' Lakes production expertise, it is no surprise that Land O' Lakes can create the finest **Dairy Blends** for your product needs, such as cocoa mix, salad dressings, nutritional products and, of course, bakery goods and dairy products.

More! Land O' Lakes uses this same expertise to make Modified Wheys: **Whey Protein Concentrate** and **Partially Demineralized and Delactosed Wheys**.

To learn more about Land O' Lakes work in the area of blends and Modified Wheys, stop by booth 826 and 827 at the IFT Annual Meeting and Food Expo, June 8 through 11, in New Orleans.
