

**Pro-Fam[®] isolates
are polyfunctional
powerhouses!**

**PRO-FAM[®] adds
punch to processing!**

PRO-FAM isolates boost protein levels in many types of processed foods. Bland PRO-FAM soy protein products have excellent binding and extending characteristics. Consumers can notice improved texture, appearance, and mouthfeel. Most important, PRO-FAM soy protein isolates improve your product quality and cut costs.

**There's no match for
PRO-FAM[®]'s versatility.**

PRO-FAM protein products (and blends) are individually tailored for better baked goods, confections, meat and seafood processing, nutritional drinks and supplements, and dairy and egg alternatives. Try several PRO-FAM isolates in your new product research. They're the polyfunctional powerhouses!
