

Veltol®. Because good taste hangs in the balance.

Imagine any flavor. Now imagine it just right. Veltol premium flavor ingredients can get you there. They can be used to improve flavor, potentiate sweetness, increase creaminess, mask bitterness, suppress acidity or chemical bite, to achieve just the right flavor. From beverages to sauces, from ice creams to baked goods, the Veltol family of products blend, round and perfectly balance your flavor system. And with Pfizer Food Science, you get more than ingredients of uncompromising quality. We'll work with you every step of the way, from product development through product launch. To find out how you can benefit from the resources of Pfizer, contact your Food Science representative or call 1-800-364-7074 / 212-573-1179.

Food Science

More than a source, a resource
