

ROHM AND HAAS ENZYMES SERVE YOU

No matter what the application, our enzymes can meet your demands for top purity, effectiveness and high quality. Our Diastases, Proteases and Pectinases are engineered to fulfill your specific processing requirements.

RHOZYME® Diastases A series of both powdered and liquid diastatic enzymes, which provide good selection of various levels of enzyme activity in liquefying starches.

RHOZYME® Proteases A diverse group of protease enzymes offering broad-spectrum, consistent hydrolytic performance on protein substrates.

PECTINOL® Pectinases A variety of pectolytic enzymes in different strengths for efficiently hydrolyzing pectins and increasing juice yield.

Whatever your processing needs, our enzyme products can serve them. Just drop us a line telling us how we can help you. Rohm and Haas Company, Attn: J. Zelko, Agchem Dept., Independence Mall West, Philadelphia, PA 19105
