A PENNZOIL DIVISION

POUR PURE

No matter how you utilize White Oils, whether as ingredient or as processing agent, you want purity. When you can be 100% sure of the purity of the white oils you use, you've removed a big source of those "surprises" that can adulterate product or foul up production schedules.

That's why so many buyers rely on Penreco. Our White Oils meet or surpass F&DA and USP requirements. They are odorless, tasteless, non-irritating, inert and highly versatile; and that means they can keep problems out of your product or process. For complete specifications or test samples contact Charles Steenberg or any member of our technical department: Penreco, 106 South Main Street, Butler, PA 16001. Call toll free (except in Pennsylvania) 800/245-3952. In Pennsylvania, call (412) 283-5600.
