

**Colorful!
Delicious!**

**Food stays that way with
Sterling® Purified™ Salt.**

Your product starts out delicious and colorful. Keep it that way with Sterling Purified Salt. There simply is no higher quality salt available. 99.9% pure sodium chloride. Less than 20 ppm calcium and magnesium. Less than 0.015 ppm copper. Never toughens delicate vegetables.

This remarkable salt has uniform crystal size. Won't break up in handling. And constant weight-to-volume guarantees precise measurement—always.

Sterling Purified Salt dissolves instantly and completely, insuring uniform texture and flavor in your product. Helps it to stay delicious and colorful.

Take a stand for brighter, firmer, more flavorful food. Pick Sterling Purified Salt for your process. Contact the Saltmasters for more information.
