

New plant! New liquid
smoke technology!

Result:

NEW

HY-SMOKE™

with perfect balance of
flavor, aroma, color
... everytime!

Dramatically improved HY-SMOKE, the 100% hickory natural liquid smoke, is now made in the most advanced facility in the industry. Fully automated purification system removes tars, resins, and other undesirable hydrocarbons from the smoke concentrate.

New HY-SMOKE is a perfectly balanced combination of phenols, acids, and carbonyls. HY-SMOKE's uniformity is made to specifications under constant manufacturing surveillance by our strict quality control laboratory.

Wide range of uses: From a touch of hickory to total permeation, HY-

SMOKE imparts reliably uniform better flavor, better aroma and greater coloring power however applied: vapor, mist, shower or dip.

Action and service: Talk with your man from Baltimore Spice. He will gladly assist you with HY-SMOKE procedures that save you time, work, and money. Or write to us.

Available in
55-gallon drum
and in bulk.
